
New position, Auckland

PTL are looking for a senior structural engineer to join our dynamic team of structural engineers and fire engineers. The role will be based in Auckland as a satellite to our Christchurch and Queenstown offices.

PTL

PTL | Structural & Fire are a team of highly skilled structural and fire engineers specializing in the design and construction of a wide range of buildings and bridges. With over 50 years combined experience in applying state-of-the-art techniques in innovative and affordable structures, PTL engineers provide professional consulting services working in partnership with developers, architects, and construction companies to ensure the highest quality end results with real buildability.

While PTL work with all structural materials, we are leaders in mass timber design both in New Zealand and around the world. As inventors and key developers of the Pres-Lam structural system, and experts in large scale engineered timber buildings over the last 15 years, PTL are at the forefront of this emerging construction market.

THE ROLE

The successful candidate will initially be PTL's only Auckland-based engineer, supporting a strong portfolio of active Auckland projects. Working closely with our Christchurch and Queenstown offices, the role offers the opportunity to contribute to the continued growth of PTL's Auckland presence, with a view to build and mentor a small local team of structural and fire engineers.

The successful candidate will:

- Have an internationally recognised tertiary degree in structural engineering
- Have at least 5 years' NZ based experience
- Be a chartered structural engineer or be on track to gain chartership
- Have a strong track record of leading the design and monitoring of construction projects
- Have a love of learning and sharing knowledge
- Be focused on people and relationships
- Be passionate about the opportunity to grow others, motivated by a leadership role, with the ability to own the delivery of high quality client outcomes.

WHAT THE ROLE WILL PROVIDE

A career with PTL will provide challenging work in an inclusive, supportive, and diverse team of professionals who like to work together. As part of this PTL will provide:

- The opportunity to work on a wide range of interesting projects and to further the engineer's knowledge in the use of mass timber in design
- A remuneration package ranging from \$140,000.00 to \$155,000.00, depending on experience, plus the chance to gain performance-based bonuses
- An opportunity to join PTL's Employee Share Option Programme (ESOP), providing the employee with a chance to have ownership in PTL and share in its success
- An opportunity to continue professional development, working closely with universities and research institutes
- Flexible working arrangements, balancing life and family commitments

If this sounds like you, please send your cv and cover letter to jobs@ptlnz.com
